EXCELLO NX RGB Headset Stand, USB 2.0 Hub, black

The EXCELLO NX RGB Headset Stand is a practical as well as stylish solution for any gaming setup. Its space-saving design ensures that your headset is always within reach, without causing clutter or annoying cable mess. Moreover, the multicolored RGB lighting, which can be conveniently controlled via a touch sensor, creates a pleasant atmosphere through different illumination modes (illumination can be turned off). In addition, the integrated USB hub enables the connection of up to three additional devices (1x USB-C and 2x USB-A). Thanks to the non-slip underside, the EXCELLO NX stands securely and firmly on smooth surfaces at all times.
